A Physician/Practice Briefing with Dr. Gale Burstein from the Erie County Health Department and Dr. Greg Young from the NYS Department of Health

via teleconference

MONDAY, MARCH 9, 2020 at 7:00AM

Colleagues,

In response to the increasing prevalence of Covid19 in New York State and in anticipation of the likelihood that it will reach Western New York, we have arranged a physician/practice briefing with Dr Gale Burstein from the Erie County Department of Health and Dr Greg Young from the New York State Department of Health.

The purpose of this briefing is to ensure that everyone practicing in the community has the most up to date understanding of Covid19 and what we can do to manage it optimally.

It is scheduled for [Monday March 9, 2020 at 7AM](#) and is expected to run one hour.

The call in number is [716-859-7444](tel:716-859-7444). The conference ID is 5644688.

If you have a specific question, please e-mail it to me (hughes.thomas@opawny.com) and I will make sure the health commissioners address it.

Based on the experience in China and Europe, this is not something that can be managed solely by the hospitals, but will require leadership from across the community.

Please do not hesitate to contact me with any questions.

Tom
