

Associated Physicians of Western New York, P.C.

RN/BSN Care Coordinator - Internal Medicine F/T & P/T

Qualifications:

Current New York State Professional Nurse Registration required

Graduate of an accredited school of professional nursing

RN/BSN Degree in nursing required

1 year nursing experience required

Responsibilities:

As an advocate for the patient, the nurse care coordinator will assess, plan, implement, coordinate, monitor, and evaluate the options and services required to meet an individual's health needs, using clinical and community resources to promote quality, cost effective outcomes. Integrates evidenced based clinical guidelines, preventive guidelines, and protocols, in the development of individualized care plans that are patient centric

Provides targeted interventions to avoid hospitalization and emergency room visits.

The Care Coordinator has an overall responsibility for coordinating and advocating for all aspects of the individual's care, including but not limited to health and behavioral healthcare, community supports, and other services required to meet the needs of the individual.

Care Coordinators use a person-centered, holistic approach, where each person being served has their health care and other service providers collaborate to ensure their wants and needs are met.

Benefits:

401K

Medical, Dental, Vision plans

Paid Time Off and Extended Sick Leave, Short/Long term Disability

Exceptional work/life balance

Employee Assistance Program (EAP)

Full Time & Part Time position available

Monday-Friday, No Night, or weekends
