

Primary Care Opportunity- Family Medicine or Internal Medicine – Springville, New York

General Physician, P.C. is seeking a Family Medicine or Internal Medicine physician to join an established and growing practice in Springville New York located at 230 South Cascade Dr Springville NY 14141.

- Springville is a village in the southeast part of the town of Concord in Erie County, New York, in the United States, mayored by William Krebs. Springville is the principal community in the town and a major business location in southern Erie County. Springville is an approximate 30-minute drive from Buffalo, NY.
- Our practice is located just 23 minutes from Orchard Park, NY
- The name may be familiar because Orchard Park is the home of the National Football League's Buffalo Bills. Orchard Park is much more than the place where the Bills Mafia gathers for eight Sundays a year. It's a vintage American village set in gently rolling countryside about a half hour drive from downtown Buffalo. At the junction of North Buffalo Road and West Quaker Road, you'll find delicious food at stops like Mangia and O.P. Social Tap & Grille, along with locally owned, independent businesses still going strong in the heart of the village. Nearby, the Eternal Flame – a naturally occurring flame flickering in a waterfall – is the highlight of many a visit to Chestnut Ridge Park.

Our opportunity offers our providers the following

- **Unparalleled support for our providers-** At General Physician, P.C. We have an entire team ready to support you. We offer a Practice Operations Team of professionals to assist you with all of your electronic health record needs, technology set up, staff recruitment, training and human resources support. This allows you to do what you do best- care for your patients.
- Our providers being supported, heard and having the resources they need to provide top quality care is our mission at General Physician, P. C.
- **Quality/Clinical support-** Our Quality Management team is comprised of expert nurses and pharmacists who are working behind the scenes to ensure the care and tests you order for your patients are completed and meet HEDIS and PCMH requirements.
- Onsite Clinical Pharmacy and Nutrition Services embedded in this practice.

We offer a highly competitive salary and benefits package that includes:

- Fully paid health insurance,
- CME allowance and paid days off
- Productivity and quality incentive and much more
- Employer paid occurrence-based malpractice insurance
